Hazardous Weather

Hazardous Weather

First of many fronts this week

Winds increase out of the west this morning, shifting to northwest this afternoon at 15-25 mph. Issued Nov 10, 2021 3:17 AM CST

Winds will increase out of the west later this morning to around 15 mph ahead of a cold front which will move through the region by the afternoon hours. Winds will shift to the northwest at around 15-25 mph following frontal passage, with elevated fire weather conditions possible across the west/southwestern South Plains. Peak wind speeds will be offset from the lowest relative humidity, limiting the overall fire weather risk. Winds will quickly diminish after dark.

Elevated Fire Weather

Noon CST /11 AM MST/ to 6 PM CST /5 PM MST/

Weather Forecast Office
Midland/Odessa, TX

Issued November 10, 2021 3:03 AM CT

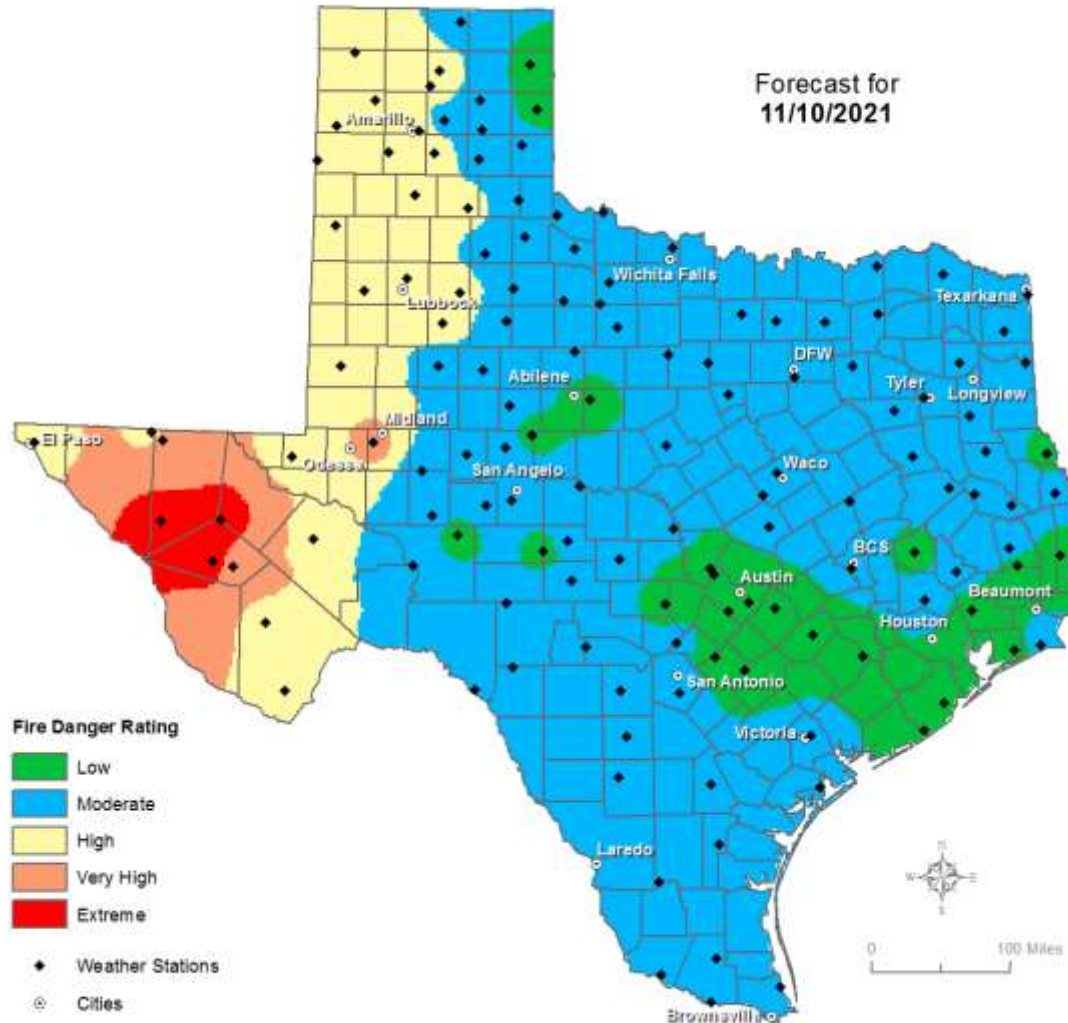

Elevated fire weather conditions are expected across Southeast New Mexico, the Trans Pecos, Davis Mountains, and Big Bend region this afternoon into early this evening.
